

Room 14 Valentine's Day Celebration

“Thank goodness for true friends, the ones who love you no matter what.”

We are going to celebrate Valentine's Day in room 14 with a celebration of our friendship, health and creativity.

Mailboxes

We are going to have a mailbox decoration contest. Students can make a mailbox at home to enter the contest. Traditionally this involves using a cereal box as the base and then getting creative with decoration and engineering. There is one requirement: All boxes must have 2 openings, one to deliver mail to and one to remove mail from. Students will vote on mailboxes to win prizes in the following categories:

- Best use of recycled materials
- Best Valentine's Day Decor
- Best Engineering
- Most Academic

Healthy Red Foods

At our party we are going to sample healthy red foods. If you can send in a healthy red food, even just enough for each student to try a bite, you will help us learn more about healthy foods. Some suggestions are: red apples, red grapes, radishes, beets, pomegranate, raspberries, cherries, cranberries (juice), red peppers, salsa, and tomatoes (juice). We have allergies to: Nuts, Kiwi, wheat/gluten, soy and dairy.

Valentines

If your student is planning on giving out any valentines to other students, there will be time after mailbox decoration for students to do so. **If your student is bringing valentines for one person they must bring it for the whole class.** On the back of this is a class list. (We currently have 24 students).

If you would like to volunteer or bring in food please fill out, cut and send the bottom of this sheet back to school with your student.

Student Name: _____

- I would like to bring a healthy red food or plates/forks/cups: _____
- I would like to volunteer in the classroom on February 14th from 11:00-11:40 _____
